The following is some information you will find helpful for your trip. Items you may want to bring:

- If you get sea sick or aren't sure if you get sea sick then it is a very wise idea to take your Dramamine before you leave the dock. Nothing can ruin a fishing trip worse than a guy named "RALPH".

- Any other required medication
- A baseball cap or a fishing hat to protect you from the intense sun. Remember the ocean intensifies the suns glare and can cause you to burn much quicker than on land.

- Sunglasses. Preferably polarized fishing glasses to reduce the sun's glare that reflects up off the water.

- Cameras to take snapshots of those big game fish you catch and better yet bring your Video camera to capture the charter fishing action.

- For the same reason you wear your hat on the water you will want plenty of sun screen especially if you easily burn. The sun's effects are doubly strong on the water and without sunscreen you may burn very quickly.

- Cell Phone (may not work depending on cell towers and carrier)

- Warm Jacket

- A duffle bag is a good idea to bring for carrying your rain gear, extra tee shirt, hat, and other personal items that you need to bring on a salt water fishing trip.

Do not bring the following items

- Firearms – **NOT ALLOWED! NO EXCEPTIONS!!**

- Bananas, banana drinks, banana bread, banana sun tan lotion anything banana. They are very bad luck on boats!

The boat leaves at 9:00 am, be there at least 30 minutes early to get acquainted with the boat and crew. The weather on the sea is unpredictable, dress in layers. Lunch and non-alcoholic drinks will be provided. If there are any special requests please let us know prior to your trip.

Make certain we have your cell phone number in case we need to reach you prior to 8:30 am on the day of your trip. **Capt. Mike's cell phone number is 1.818.262.6022.**

Captain Mike Schmidt is an IGFA Certified Observer and recognized as a U.S. Coast Guard Licensed Captain and an IGFA Certified Captain.

Although Catch, Film & Release is preferred by the captain but not required, anything caught and kept automatically becomes property of the boat and captain. This does not mean that you can't get the jaws, or mount of the shark or fillets of what is caught. These are all services that we can provide to you at a reasonable cost.

All charters have to be approved by the captain and are dependent weather permitting.

We also hire out to commercial and private companies for the capture of sharks, satellite tagging and transportation of sharks - call for pricing.
